TrueCost - User Flow #3: Setting Up a Resource Rate Calculation

1 **Hook & Loop Note:** Overall this entire flow is for setting up a time-based allocation rule

2 **Hook & Loop Note:** How does verifying data work?

3 What is the end result of Publish?
Hook & Loop Note: It will give you a file that tells you job class, department, whats the rate, and dependent on the types of classes and departments - that will be used in the allocation rules; this will Publish to a statistics account, people can use these to make rules.

4 Does this save as a draft?
Hook & Loop Note: No AutoSave -> Save, Save As, Cancel; If you lose connecting Save as Draft or Recover
